Other facts:

- 1 in 3 Louisiana residents is obese
- 64% of our plan members are over 50 years old.
- We currently have 25,000 members being treated for diabetes.
- Another 10,000 are pre-diabetes
- 4,000 members have diabetes and are not seeking treatment. If not treated properly, those members are more likely to have strokes, kidney failure or cardiac events.
